CUTM600 LOW SPEED PRECISION CUTTING MACHINE

- The equipment is equipped with a 4 kinds of fixture, which can make the processed objects position and cut at the best angle
- Equipped with limit switch, can realize unattended processing, high precision spindle operation
- Accurately fine-tune the horizontal feed position of the processed objects, and automatically stop running after cutting.

SPECIFICATION

Travel of mobile frame	25mm
Positioning accuracy	0.01mm
Spindle rotation speed	0-600r/min
Cutting blade diameter	Ø100x0.4x12.7mm
Max. cutting diameter	Ø30mm
Power	110/220V
Power consumption	50W
Weight	19.4kg
Dimension	392x330x310mm

INCLUDED ACCESSORIES

Main unit	1pc
Spanner	1pc
Wrench	1pc
Fixture	1 set
Diamond cutting blade	1pc
