GP203 MANUAL GRINDING POLISHING MACHINE

- One machine is multi-purpose, easy to complete the metallographic sample pre-grindingrough grinding, fine grinding, rough polishing and fine polishing
- Double disc double control, Variable speed regulation and two fixed speed, speed control system optimized for grinding and polishing machine
- Easy to control the switch knob, simple operation
- Fine grinding and surface treatment of the work disc, to ensure that the surface of the sample is smooth

FORCE

SPECIFICATION

Polishing disc diameter (mm)	203
Rotation speed (rpm)	variable adjustable speed 50-600
Working disc rotation direction	clockwise and counter clockwise
Control method	double disc double control
Motor power	550Wx2
Input voltage	100-240V
Weight	50kg
Dimension	566x712x270mm

INCLUDED ACCESSORIES

Main unit	1pc
Polishing velvet	2pcs
Metallographic sandpaper	2pcs
Water pipe	1 set
Power cable	1pc
