PH210E PORTABLE PH METER

IP65

- Separated type
- Reading mode: auto-read and continuous-read
- With temperature compensation (automatic/manual)
- One or two points calibration with standard
- Data capacity: 200 sets
- IP65 dust/waterproof level
- Auto power off

wristband (included)

KCl powder(included)

standard solution(included)

SPECIFICATION

PH	Range	-2.00~18pH
	Resolution	0.01pH
	Electronic unit accuracy	±0.01pH
	Measurement accuracy	±0.02pH
	Calibration point	1 or 2
	Standard recognition	NIST pH buffers: 4.01, 7.00, 10.01
Voltage	Range	-1999~1999mV
	Resolution	1mV
	Accuracy	±1.0%FS
Temperature	Range	-5~110°C/23~230°F
	Resolution	0.1°C/0.2°F
	Accuracy	±0.4°C/±0.7°F
Inputs		pH electrode: BNC(Q9)
		temp. probe: 4-pin aviation connector
Power supply		rechargeable battery
Dimension		80x225x35mm
Weight		400g

INCLUDED ACCESSORIES

Main unit	1pc
Electrode	1pc
Electrode holder	2pcs
Wristband	1pc
Silicone rubber case	1pc
AC/DC adapter	1pc
Standard solution	3 bottons
KCl powder	1 botton
